2nd Swiss Summit on Hemato-Oncology

2nd SSHO[®] 2010

Dear Colleague

We are pleased to invite you to the 2nd Swiss Summit on Hemato-Oncology (2nd SSHO[®]), which takes place on Wednesday 8 September 2010 in Berne.

The second SSHO[®] conference will address the latest data on hemato-oncology, presented by a panel of leading national and international experts. The distinguished faculty will discuss progress in the management of follicular lymphoma (FL) patients and will explore the current algorithm in the treatment of mantle cell lymphoma (MCL). In addition, patient-tailored treatment strategies in chronic lymphocytic leukemia (CLL) will be discussed.

This summit promises to be an informative and interactive event for challenging standards of care in the treatment of these malignancies. We look forward to welcoming you to this educational dinner in Berne in September.
