13th ASCOSCOPY 2022

Officially ASCO Direct

Chaired by Prof. Dr. S. Peters and PD Dr. A. Curioni

in Bern

ASCOSCOPY 2022

Officially **ASCO** Direct

in Bern and virtual

With the increasing subspecialisation in oncology, the constant stream of new data and approvals, it has become very demanding to stay up to date. To provide you with the expert picks of key data, presented at the **ASCO**, and giving you a general overview of the oncology treatment landscape, we invite you to this event.

By presenting **ASCO** highlights provided by Swiss experts in their specific fields **ASCOSCOPY** has been a successful format for over 10 years now.

After a very successful hybrid event last year we are happy to host our 13th **ASCOSCOPY** this year again as a live event on the 9th June in Bern. The recording of the event will be later available as webcast - viewable whenever you are ready to catch up on the key data presented at **ASCO**.

This year's multi-sponsored virtual format will become available 24h after the event on www.MedTalks.ch.

We hope that you will enjoy this year's presentations and we look forward to meeting many of you in person at the **ASCO** in Chicago or in Bern for the **ASCOSCOPY 2022**.

Kind regards,

Prof. Dr. S. Peters

(Chair of the **ASCOSCOPY** event)

PD Dr. A. Curioni

(Chair of the **ASCOSCOPY** event)
