

The Peter Anton & Anna Katharina Miescher Foundation for Haematological Research

and the

Schweizerische Gesellschaft für Hämatologie
Société Suisse d'Hématologie
Società Svizzera di Ematologia
Swiss Society of Hematology

The Peter Anton & Anna Katharina Miescher Foundation for Haematological Research and the Swiss Society of Haematology, (SSH), **invite applications for a grant of CHF 100,000 for the years 2022 - 2023 for a 2-year research project** in clinical or basic research in haematology, including transfusion medicine.

Please submit your project **by midnight, (Swiss time), on 30/11/2021 at the latest by e-mail to info@sgh-ssh.ch**.

Requirements for your application:

- You are a haematologist undergoing further training in haematology or are a biologist actively involved in a public or private haematological research group based in Switzerland.
- In exceptional cases, you work abroad, in which case the research project must be supported by a Swiss institution that has a connection with you.
- You are a Swiss citizen, working in Switzerland or abroad, or a foreign citizen, in which case the research must be conducted in Switzerland.

Your project description should include:

- Introduction: a brief description of the status of the research project in question
- Main part: Description of the methods used to realise the project, description of the objective(s) of your research.
- Information on other available funds, apart from possible support from the Foundation and the SSH
- Abstract: emphasises the importance of the proposed research project and includes the main bibliographical references

This document must not exceed 5 A4 pages in total, (font size 12, single line spacing), and must be written in English.

Please also submit the following documents:

- Financial plan describing the research project, including how the money will be used
- Curriculum Vitae (maximum 4 A4 pages)

The prize winner will be officially announced by the SSH and the Foundation at the Swiss Oncology and Haematology Congress (SOHC) in November 2022.

For further information, please contact the SSH office info@sgh-ssh.ch or the Foundation: Prof Dr. med. Photis Beris photis.be@bluewin.ch

Basel, 15 July 2021
